

# Generation 4 Display Quick Line

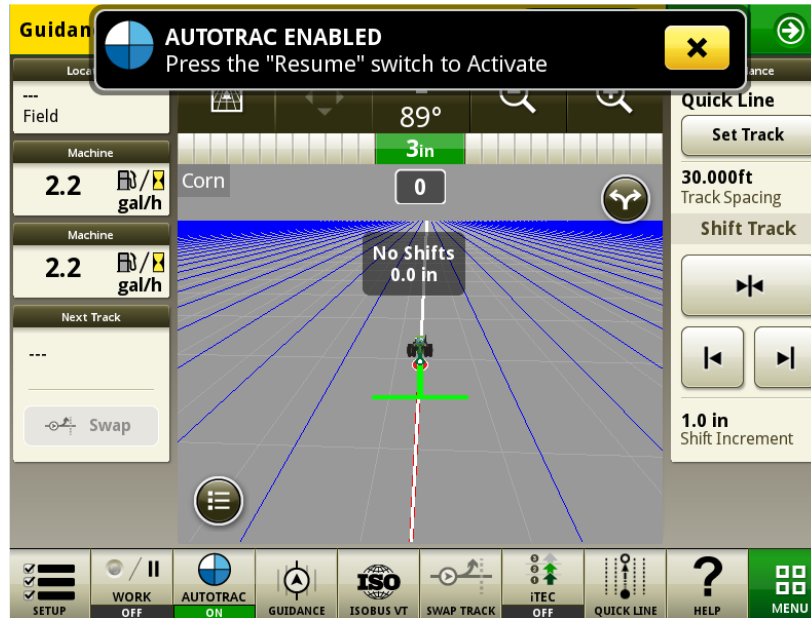

1. Press the “Quick Line” button on the Shoutcut Bar.

2. After pressing the “Quick Line” button drive 50 feet and the display will snap an AB line.

- Once the vehicle has driven 50 feet the display will enable AutoTrac. Three out of four pieces of the AutoTrac pie will be filled in.

- Press the "Auto" button right beside the throttle on the tractor to engage AutoTrac. Make sure you are close to your line before engaging AutoTrac.
